Selling For the Church.

Calhoun County News.
A few days ago a party of fishermen who were camping on Natchaway creek sent to a negro house nearby to buy some "snake bite." A pint of whiskey was brought forth by the vender, and he was tendered a \$19 bill out of which to get his pay. The darkey had no change and handed the bill back to the purchaser, who remarked that as he could not change the bill he would pay him as he passed the next day, whereupon the darkey, who was a deacon in his church, replied: "No, boss, I can't sell it without the money, because tonight is prayer meeting night, and I've got to make my report and turn in all the cash. I am selling for the church."

Delay Has Been Dangerous in Newberry

Do the right thing at the right time. Act quickly in time of danger. In time of kidney danger Doan's Kidney Pills are most effective. Plenty of Newberry evidence of their worth.

W. K. Thigpen, 109 Player street, Newberry, says: "The bending and heavy lifting I have to do in the mill weakened my kidneys and brought on backaches. If I stooped over, a sharp pain caught me across my loins and I could hardly straighten. The kidney secretions were too frequent, scanty in passage and burned like fire. I had dizzy spells and dull pains in the back of my head. I finally began using Doan's Kidney Pills and a few doses relieved me. One box completely cured me."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Thigpen had. Foster-Milburn Co., Props., Buffalo, N. Y.

Burrowers---Beware!

Gophers and prairie dogs are the bane of western farmers, while in the east woodchucks are the type of burrowing animals that cause the tillers of the soil to forget some of the things the dominie tells them on Sundays.

Don Leonardo Ruiz, a California rancher, says "dynamite is the proper medicine to give ground squirrels, gophers, prairie dogs, etc."

Take an inch and a half or two inches of dynamite. Put it in a bit of cloth or several thicknesses of paper to form a small round cartridge. Tie the cloth or paper firmly about one end of a piece of fuse twelve or fourteen inches long, but do not use a cap.

Insert one of these charges well into the mouth of every hole and pack loose dirt around the fuse, leaving enough of the end outside to light easily. Light the fuse and go on to the next hole. There will be no explosion.

There being no cap or other detonator, the dynamite will simply burn, filling the hole with dense, poisonous fumes that will almost instantly stifle and then kill every living thing inside.

Both Sides Satisfied With New Rules.

The inspection system prepared by Governor Manning, after several weeks of study has been adopted by the Columbia union of carmen and the Columbia Railway, Gas and Electric company. The old inspection rules caused in part the differences which resulted in the recent strike on the car lines. Governor Manning and others were proposed by the street railway company to frame a new set of rules. The carmen selected Governor Manning for the work.

The terms of the new rules have not yet been made public. It is said that the rules met with the approval of both sides.

CONSPIRACY CONFESSED BY GERMAN LIEUTENANT

Robert Fay of Saxony Details Plot to Disable Liners Bearing War Munition and Supplies.

New York, Oct. 25.—Details of a plot to hamper munitions shipments to the allies by placing clockwork bombs on the rudders or propellers of ships to disable the vessels on their way across the Atlantic were disclosed today in the confession of one of five men charged with conspiracy to violate a federal statute.

After the confession of Robert Fay, a lieutenant of the Sixteenth Saxony Infantry, who admitted that he came to this country last April through an agreement with the German secret service to blow up or delay steamers laden with war supplies for the allies, William J. Flinn, chief of the secret service, tonight filed before United States Commissioner Houghton an affidavit in which Fay and four others are charged with promoting the conspiracy. A hearing was set for November 4.

Fay confessed that while on the battlefield he talked with superior officers about a device to blow up ships, that later his idea of coming to America and carrying his scheme through was well received by the German secret service; that he came well equipped with money to act on his own responsibility and that he talked with Capt. von Pappen, military attache, and Capt. Boy-Ed, naval attache of the German embassy, about the plan, but they had refused to have anything to do with it.

An Iron Cross Man.

The confession of Fay, who said he had been decorated with the Iron Cross for fighting in the Champagne district in France, covers his arrival in the United States April 23, last, his making of clockwork bombs since then, and his activities in experimenting with explosives along the Hudson river.

Quantities of acid in the room occupied by Fay and Walter I. Scholz in Weehawken, N. J., and boxes containing chlorate of potash, used in making so-called sugar bombs, in a boat house on the Hudson, were found after the arrest of the men Sunday. Scholz, a brother-in-law of Fay is a mechanic.

Two other men were arrested today and another, making the fifth, was named in the complaint, but he had not been apprehended.

May Not Prosecute.

Washington, Oct. 26.—Officials of the department of justice expressed doubt today whether the federal government can make out a case against the men implicated in the plot to blow up munition ships sailing from the United States.

THE TOWN GOES WILD

When Fire Bell Sounds—Endangers Life and Does Not Help Firemen.

The instant the fire bell tapped Tuesday evening the town went wild, as it does on almost every occasion when the fire alarm is sounded. Immediately every man who had a horse and buggy or an automobile at hand sprang into it and loaded it with his friends and then the mad rush for the scene of the fire began. All restraint and all regard for safety were thrown aside and for the space of ten minutes, it was dangerous for a pedestrian to attempt to cross the street. Powerful machines in the hands of persons who seemed absolutely crazed by the fire alarm, sped along the streets and swung around corners at a pace that would have been dangerous, even if the streets had been clear. Blinding headlights flash and played up and down the sides of buildings like the rapid lightning of a thunder storm.

And lo, when they got there, there was nothing to appease the appetite for the curious but a smoking trash pile. Then they came back, every one of them, like a defeated candidate from an election.

Of course if Mr. A., who is in his place of business, sees a smoke or a red flare in the direction of his home, no one can blame him for rushing at top speed to get there, but the fellow who resides on the opposite side of town can assist best by staying away and leaving the streets open to the firemen, who alone have business there.

A gaping crowd of onlookers at a fire can do no good, and besides being in danger, actually impede the work of the firemen. Of course every one has a perfect right to the streets whenever and wherever he sees fit, and there is no way to prevent a crowd at a fire. About the only recourse is to appeal to the reason and common sense of those who are in the habit of going wild when the fire bell rings.

"I suppose you have said things that you were sorry for?"

"Oh, yes," replied Senator Sorghum. "But I've always managed to show that I was misquoted."—Washington Star.
